

**National Supercomputing Institute
Computer Account Security Agreement**

The following paragraphs pertain to your use of the Research Electronic Data Capture Software ("REDCap") as well as other resources of the UNLV National Supercomputing Institute (NSI) located at the University of Nevada, Las Vegas.

- This addendum is in addition to the UNLV NSI Computer Account Security Agreement. The Computer Account Security Agreement is included and made part of this addendum by this reference.
- The REDCap software is owned by Vanderbilt University, and its use is governed by a license granted by Vanderbilt. By using this software, you agree to be bound by the terms of the REDCap license. A copy of the "Terms of Use for the REDCap Non-Profit End-User License Agreement" may be obtained from NSI upon request.
- Your use of the REDCap software is governed by the following restrictions (the End-User License Agreement includes these restriction in addition to other conditions):
 - o Ownership of all rights, including the copyright in the Software, shall at all times remain with Vanderbilt.
 - o While you do not normally need access to REDCap source code in order to use it, in the unlikely event that the source becomes visible to you, you shall treat any part of the REDCap source code as confidential, and will not disclose it to third parties.
 - o While you retain ownership to any data collected by REDCap, and may transfer it to non-NSI resources, you agree not to transfer any of the REDCap source or other system files.
